THE BEST IN BOXWOOD

EASTON, MARYLAND

Wholesale List

FALL 1925

SPRING 1926

General Sales Agents

THE OUTDOOR ARTS CO.
FLOURTOWN, PA.

FOREWORD

Canterbury is a wholesale nursery specializing in evergreen shrubs; of which Boxwood in its several species, varieties and forms, is the leader.

The location of the nursery on the famous Eastern Shore of Maryland—where North meets South—is especially happy, for conditions of temperature and moisture are such as to make for ideal growth. The soil of the nursery is a moderate clay loam; a necessary condition for proper evergreen culture, for it encourages the development of a fibrous root system, as well as permitting natural balling for shipment.

All plants are grown under the personal supervision of Ernest Hemming, well-known to the trade for many years. This in itself is a guarantee of high quality and accuracy in naming.

Terms, Etc.

CASH must accompany all orders from firms who have not opened an account with us. Or suitable references must be furnished, in which case ample time must be allowed for their investigation. 2% may be deducted for cash with order, or remittance ten days from date of invoice. Accounts are due in thirty days unless otherwise arranged.

All quotations are F.O.B. Easton, Md., transportation being at the risk of buyer. We make NO CHARGE FOR PACKING or boxes, unless otherwise stated. A limited number of plants will be furnished as samples at one-half the lowest rate quoted. Cash or stamps should accompany all sample orders.

Members:

American Association of Nurserymen.

Eastern Nurserymen's Association.

All orders are accepted subject to crop or any other conditions beyond our control. Prices in this catalogue are subject to change without notice.

BOXWOOD

A more detailed description of the several varieties and kinds may be had from our booklet on the subject. Copies mailed free on request.

F our Boxwood we are justly proud. First, it is grown from cuttings, the parent plants of which are true to name and conform to the best obtainable type. This is a more important point than might at first be thought, as there is a great deal of stock offered of which this cannot be said. Much of it originating from seedling parents of very inferior appearance. Be sure when placing your order for a given kind that you get that kind, accurately labeled by ONE WHO KNOWS. Second, our plants are all specimens from the smallest up. They are plump and bushy—not tall and scraggly as are so many. The color is bright and lustrous like the Holland grown stock. And they are frequently transplanted in a clay loam soil that gives a truly marvelous root system.

In a few of the sizes we are offering two grades. Grade A are older, broader plants, in fact, they are nearly as broad as they are high; Grade B in no wise is inferior except that the plants are not as bushy, and therefore more plants are necessary to cover a given distance. We offer no untransplanted or otherwise inferior grades.

Buxus sempervirens, var suffruticosa

TRUE DWARF BOX

THE age old Box of colonial gardens, such as Mount Vernon. Used largely for edging gardens and walks.

Size	Grade	Under 50 Each	50 to 500 Each	500 or More Each
3"	B	\$.08	\$.06	\$.05*
3-5"	B	.15	.10	.08*
3-5"	A	.19	.15	.12*
5-7"	B	.17	.14	.11*
5-7"	A	.25	.20	.17
7-9"	A	.40	.30	.25

*Special prices on lots over 2500.

NOTE: All plants have been heavily sheared.

Buxus s. arborescens

TRUETREE BOX

AN interesting plant, distinctly different from the others. While it is by no means as compact, its very rapid growth makes it very desirable for specimen planting and for hedging. Grows to be a tree 30-35 ft. in height.

Size			Each
18-24"	Slender	B&B	\$1.00

NOTE: As our supply of this variety is very limited this year, we suggest an early reservation.

Buxus japonica

JAPANESE BOX

Has light olive green foliage, a loose and pleasing habit and quite rapid growth. Especially adapted to foundation and mixed plantings. May also be used advantageously as a hedge plant. Our supply is very limited this year.

Size 9-12"	B&B	Each \$.50
---------------	-----	----------------

Ligustrum lucidum

GLOSSY PRIVET

ONE of the most beautiful of evergreen shrubs. It is well known in the South, but has been little planted north of Carolina. Used largely for base and mixed evergreen planting. May also be used as a hedge.

Seedlings should be avoided—their form and hardiness being untrustworthy and inferior. Our plants are grown from cuttings from mature bushes that proved perfectly hardy in Philadelphia for many years. They are superior to most in both habit and hardiness.

Size 12"	B&B	Each \$0.75
2-3'	B&B Very bushy	1.50

Ligustrum ovalifolium aureum
GOLDEN PRIVET

A VALUABLE plant for color contrasts in mixed plantings.

Size 12x18"	Under 50 \$.30	50 or More \$.25
----------------	--------------------	----------------------

Abelia grandiflora
GLOSSY ABELIA

A DELIGHTFUL evergreen shrub, carrying myriads of pink flowers from August to frost. Used mostly in the North in mixed plantings and in the South as a hedge plant.

Size 12-18"	Under 50 \$.40	50 or More \$.30
18-24"	.50	.40

NOTE: These prices are for puddled stock. Add 10% if you wish them B&B.

IN comparing our prices with others, please remember that the quality of our stock is not only the highest, but PACKING AND BOXING IS FREE.
